

PSV Technician/Engineer (Day Shift)

OmniServ Ltd Gatwick Airport – London

£36,400 pa + overtime (where required)

OmniServ Ltd a subsidiary of ABM operates a fleet of 50+ PSV vehicles at London Gatwick Airport.

Reporting directly to the Engineering Manager you will be part of the fast-paced team responsible for the maintenance and repair of this fleet in the workshop and airside amongst the busy Gatwick operation.

The Engineers work a 4 on 4 off shift pattern alongside the operation team in a challenging yet rewarding environment where we promote teamwork across departments.

Main duties, responsibilities and tasks:

- Carry out routine safety inspections, MOT preparations, servicing and preventative maintenance in line with VOSA and the companies strict standards
- Diagnosis of both mechanical and electrical faults
- Rectify drivers defects as required
- Attend vehicle breakdowns
- Correctly complete all paperwork in a structured timely manner on completion of jobs.
- Keep the workshop and working environment around you in a clean and tidy state (working to a 'clean as you go' policy).
- Always Comply with the company Health and Safety
- Complete any other reasonable work-related requests
- Working shift patterns is required

Your Profile:

- Experienced PSV/HGV engineer
- City & Guilds qualifications NVQ Level 3 in PSV/HGV repair and maintenance
- Full UK driving license (PSV/HGV license desirable)
- Excellent diagnosis skills in both mechanical and electrical
- A basic level of IT skills
- Team working and great communication skills are paramount

Benefits

- Full time employment
- Competitive rate of pay + overtime (where required)
- Full training
- Company uniform
- Development Opportunities
- Free parking whilst on duty
- Discounts with retailers, travel and much more with a Gatwick Airport ID Card
